An aerial photograph of a whirlpool in turquoise water, showing a dark center surrounded by white foam and swirling currents. The text 'About Aqualung' is overlaid at the bottom.

# About **Aqualung**

## Our Story

Aqualung, part of the Aqualung Group, is the leading global designer and manufacturer of dive and water sports gear.

Now available in more than 100 countries around the world, Aqualung pioneered the creation of modern diving equipment when Captain Jacques-Yves Cousteau teamed with engineer Emile Gagnan in 1943 to develop the first “aqua-lung,” making underwater exploration possible.

Aqualung is committed to providing sustainable, innovative, reliable, and easy-to-use products that allow adventure seekers to enjoy responsible water exploration and continues to set the industry standard for water sports equipment in technology, comfort, safety and design.

## Our World

At Aqualung we believe that underwater exploration is an unexpected journey from which you can't come back unchanged. A journey where the unbelievable becomes believable, where emotions and sensations are multiplied. An unexpected journey that enriches each of us. That is why we keep on questioning the status quo, daring to think differently so we can offer every explorer the safest and most advanced water gear for their quest. At Aqualung we provide the most advanced water gear enabling anyone to reconnect with oceans and go beyond the expected.

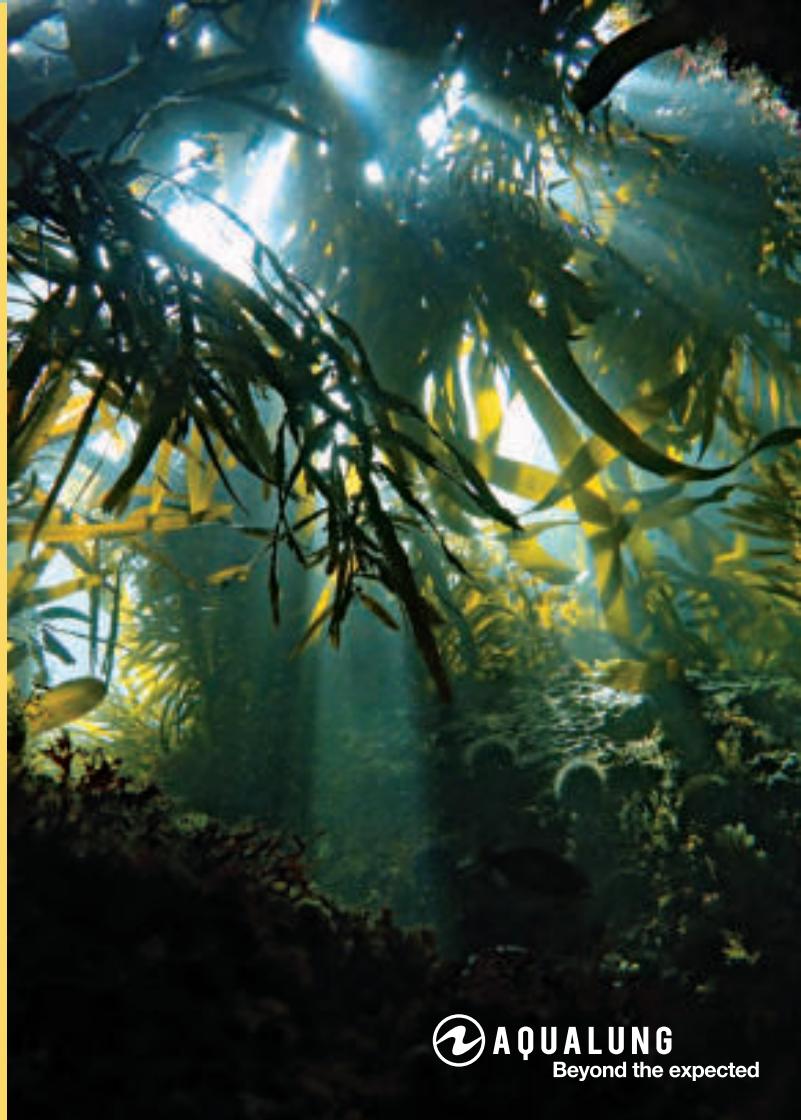

An underwater scene with sunlight filtering through seaweed and coral. The text "BEYOND THE EXPECTED." is overlaid in large, bold, yellow letters. A registered trademark symbol is at the end of the word "EXPECTED".

# Regulators®

# 101

**Aqualung is synonymous with the scuba regulator we invented it. So, it stands to reason that we continue to lead the way with the best underwater breathing devices available today.**

**An Aqualung scuba regulator offers you the best in comfort, value, ease of breathing, control and peak performance.**

## Auto Closure Device System

When the first stage is not connected to a cylinder valve, the Auto Closure Device (ACD) keeps the inlet shut to protect the first stage internal parts from contamination and corrosive water.

- Preserves the internal lubrication
- Keeps the inlet filter clean and dry
- Available Din 300b Yoke 232b
- Patented system US20060157123

## High-pressure seat

### 20 years of reliability

The high-pressure seat is the “heart” of a regulator. With every breath a diver takes, the high-pressure valve opens and closes again. The seat must create the perfect seal every time, providing consistent accuracy of the medium working pressure.

It is crucial to select the perfect blend of materials in order to achieve reliability over the years of regulator usage.

Thanks to proprietary materials and a specific overmolding adhesion process, Aqualung’s unique, patented seat design has proven to be a benchmark regardless of the often extreme conditions their regulators are used in.

Each balanced high pressure seat is 300 bar compatible and was individually inspected multiple times at Aqualung’s facility in Carros, France, to guarantee the highest manufacturing quality levels.

For the past 20 years, this valve has been installed into over one million regulators and it has proven to be exceptionally reliable.

## Comfo-Bite™

Patented (US4862903)  
Comfo Bite™ mouthpiece  
reduces jaw fatigue and  
secures the second stage  
more comfortably

Auto-Balanced (also known as Over-Balanced)

# LEG3ND

Since 2002, the **Aqualung Legend regulators** have been synonymous with unparalleled **breathing comfort**. For the third generation, our engineers went above and beyond designing these **state-of-the-art Leg3nd** diving regulators. They **simplified** the line-up with a single first stage compatible with all three versions of the second stage and any underwater condition.

Passionate divers can choose their second stage from three models, depending on how much they want to customize their airflow underwater. From **tropical to icy cold water**, from **shallow reefs to deep shipwrecks**, from **calm seas to strong currents**, the **Aqualung Leg3nd regulator** is the perfect option for any **dive adventure**.

## 1<sup>st</sup> STAGE

- **Auto Closure Device (ACD)** keeps the inlet shut to protect the first stage internal parts from contamination and corrosive water when the first stage is not connected to a cylinder valve

- **Exceptional cold-water performance** is achieved by modernizing Aqualung's three anti-freeze properties:

1. Integrated dry chamber keeps inner dry by isolating them from the outside environment
2. Deep ribs create a large heat exchange surface to prevent ice forming on the mechanism (+30% vs Glacia / +70% vs Legend 2)
3. The new overmolded cap delays ice forming over the external diaphragm

- **Auto-Balanced** (also known as Over-Balanced) While most modern regulators can compensate tank air pressure drops, they can't balance the variations of the ambient hydrostatic pressure as you descend deeper. The Aqualung Leg3nd's first stage overcompensates the interstage pressure to lower the breathing effort.

- **Ergonomically shaped DIN and YOKE screws** made of a bi-material "**Soft Grip**" surface. Provide a better hold when installing or removing the first stage – especially with cold hands

## 2<sup>nd</sup> STAGE

- New front cover opening channels allow water to flow sideways over the Diaphragm

- Radial openings to prevent freeflows when diving in stronger currents

- Openings widened to reduce peak inspiratory flow by an impressive 20%

- Overmolded exhaust cover made of elastomer with a "soft touch" effect

- Overmolded air purge. Wide surface area makes regulator purging easier Purge depth controller optimizes air flow with minimal effort

- Patented Comfobite mouthpiece reduces jaw fatigue and secures the second stage more comfortably

- Detachable and reusable mouthpiece clamp allows a quick and simple toolfree mouthpiece change without plastic waste

- The enlarged heat exchanger helps to prevent freezing of the second stage mechanism

- Air channel deflector

- Directs the air flow evenly during the inhalation phase

- Streamlined bi-material deflector lowers the exhalation effort

- Flexible and lightweight (just 132g) Aqua Flex hose with dual protectors

## LEG3ND Elite

LEG3ND ELITE DIN	RG148005
LEG3ND ELITE YOKE	RG148004
PK LEG3ND ELITE YOKER + OCTO + SPG + BAG	RC124112
PK LEG3ND ELITE DIN + OCTO + SPG + BAG	RC124113

The **Leg3nd Elite** gives divers unprecedented capabilities by providing perfect precision and enhanced ergonomics at your fingertips. Advanced divers appreciate the independent micro adjustments to fine-tune their own individual breathing preferences.

### Technical Features

- Auto-Balanced (also known as Over-Balanced): While most modern regulators can compensate tank air pressure drops as you scuba dive, they can't balance the variations of the ambient hydrostatic pressure as you descend deeper.
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Deep ribs create a large heat exchange surface area that helps to prevent ice forming on the mechanism
- Inhalation adjustment knob: Allows the diver to precisely adjust the opening effort sensitivity.
- Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow.

New color

## LEG3ND MBS

LEG3ND MBS YOKE	RG148002
LEG3ND MBS DIN	RG148003
PK LEG3ND MBS YOKE + OCTO	RQ132113
PK LEG3ND MBS DIN + OCTO	RQ132114

The **Leg3nd MBS** allows divers with the simple turn of a knob to adjust two essential parameters. This revolutionary combination makes possible the adjustment of Venturi effect and inhalation effort simply and simultaneously. The diver quickly and easily adapts regulator's performance to its breathing preferences.

### Technical Features

- Auto-Balanced (also known as Over-Balanced): While most modern regulators can compensate tank air pressure drops as you scuba dive, they can't balance the variations of the ambient hydrostatic pressure as you descend deeper.
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Deep ribs create a large heat exchange surface area that helps to prevent ice forming on the mechanism
- With the MBS on minimum position (only one full rotation): The spring is fully compressed and the inhalation effort is about 3 mbar higher. A free flow is contained when the venturi blade restricts the injection outlet.
- With the MBS on maximum position, injection of the airstream is unrestricted and the flow is maximized.

New color

## LEG3ND

LEG3ND YOKE	RG148000
LEG3ND DIN	RG148001
PK LEG3ND YOKE + OCTO	RQ132113
PK LEG3ND DIN + OCTO	RQ132116

The **Leg3nd** offers performance and simplicity. A simple venturi flap with an ergonomic design and a «soft touch» elastomer allows a simple and quick way to contain or allow a continuous flow and ensure perfect control without ever sacrificing ventilatory comfort.

### Technical Features

- Auto-Balanced (also known as Over-Balanced): While most modern regulators can compensate tank air pressure drops as you scuba dive, they can't balance the variations of the ambient hydrostatic pressure as you descend deeper
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Deep ribs create a large heat exchange surface area that helps to prevent ice forming on the mechanism
- Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow."

This mid-range regulator is balanced on first and second stages, it is our core range. It represents the DNA of the Aqualung regulators. It is certainly the best value for the next coming years. It benefits from the patented ACD technology.

The first stage is fully protected even when the regulator is not under pressure. The Aqualung **Helix Pro** can be serviced every 2 years.

**Technical Features**

- Balanced diaphragm 1st stage provides superior, consistent performance
- “T” shape body for streamlined hose positioning
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Heat exchangers on second stage help to prevent ice forming on the mechanism
- In-line ergonomic Venturi knob allows for make precise adjustments, even while wearing gloves

## Helix Pro Partner

HELIX PRO PARTNER DIN

RG150004

A **Helix Pro Partner** version is a first stage with an Octopus, each with a unique serial number, an excellent choice for an alternative air source. The 1m long bright yellow hose on the second stage allows for easy buddy sharing and visibility during dives. This regulator is cold water CE approved. It benefits from the patented ACD technology.

The first stage is fully protected even when the regulator is not under pressure. The Aqualung Helix Pro can be reviewed every 2 years.

### Technical Features

- Balanced diaphragm 1st stage provides superior, consistent performance
- "T" shape body for streamlined hose positioning
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Heat exchangers on second stage help to prevent ice forming on the mechanism
- In-line ergonomic Venturi knob allows for make precise adjustments, even while wearing gloves

## Mikron ACD

MIKRON ACD YOKE

RG125111

MIKRON ACD DIN

RG125112

MIKRON ACD YOKE + OCTO

RQ124111

MIKRON ACD DIN + OCTO

RQ124112

The **Mikron** is the smallest and lightest regulator in the Aqualung collection. Specifically designed for traveling divers who prefer to bring their own equipment on their diving adventures, it packs great performance into a compact package.

Equipped with our patented auto-closure device (ACD) and Comfo-Bite™ mouthpiece, plus a pneumatically-balanced second stage, you're all set for a smooth, easy breathing experience for your next globe-trotting adventure.

### Technical Features

- Reduced size and weight makes the Mikron the ideal choice for travelers
- "T" shape body for streamlined hose positioning
- Pneumatically-balanced second stage allows for smooth, easy breathing
- The second stage has an adjustment knob that allows the diver to optimize the opening effort

New color **Titan**

TITAN DIN + OCTO + SPG + BAG	RC126111
TITAN YOKE + OCTO	RQ133111
TITAN DIN + OCTO	RQ133112

The **Titan** regulator is reliable and robust. It integrates the lightweight feel, rugged durability and easy-to-breathe functionality of its predecessors. It offers excellent performance and easy maintenance at an affordable price. It's easy-to-maintain, lightweight, compact, and comfortable design makes it a great fit for beginners

**Technical Features**

- Balanced diaphragm 1st stage provides superior, consistent performance
- "T" shape body for streamlined hose positioning
- In-line ergonomic Venturi knob lets make precise adjustments, even while wearing gloves

New color **Calypso**

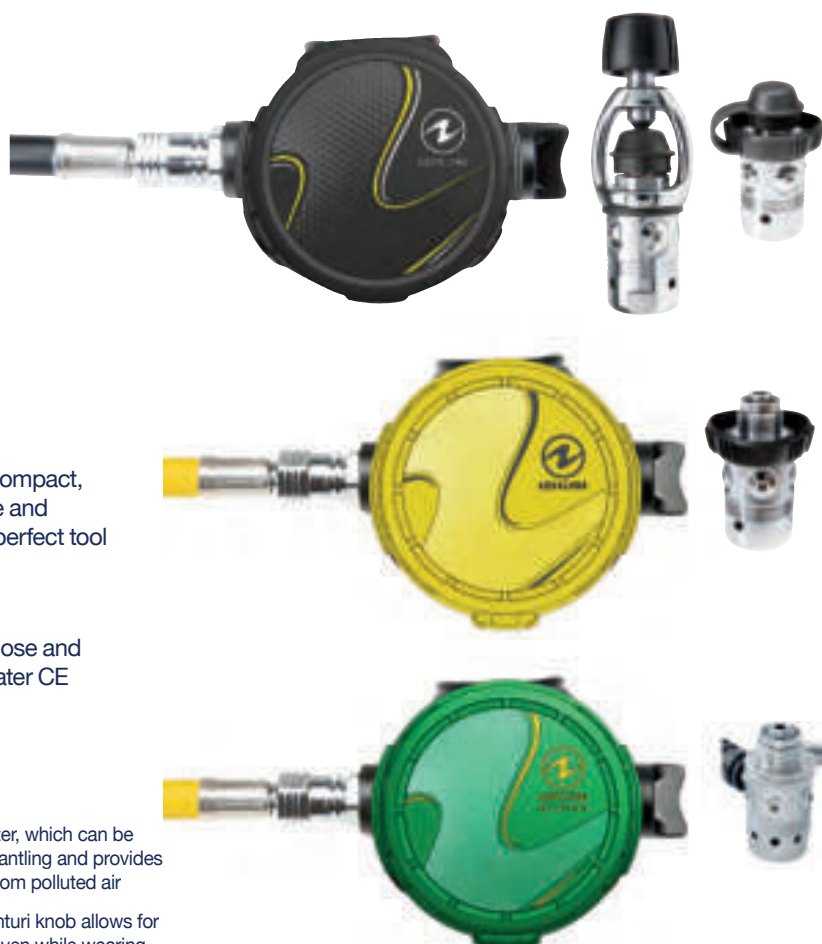

<b>CALYPSO</b>

<b>CALYPSO PARTNER</b>	
CALYPSO PARTNER - DIN	RG126115
CALYPSO PARTNER - NITROX M26X2	RG126117

The **Calypso** is always emulated but never equaled. It is compact, lightweight, easy to clean, pack, and maintain. It is durable and dependable in even the most demanding conditions, the perfect tool for dive centers.

**CALYPSO PARTNER**  
A version of the **Calypso** delivered with a 1m long yellow hose and the **Calypso Octopus** 2nd stage. This regulator is cold water CE approved.

**Technical Features**

- The large-diameter piston gives you more stable pressure out
- Designed with large holes in end caps for easy cleaning and better thermal exchange and improved resistance to freezing
- Includes a second filter, which can be changed without dismantling and provides increased protection from polluted air
- In-line ergonomic Venturi knob allows for precise adjustments, even while wearing gloves

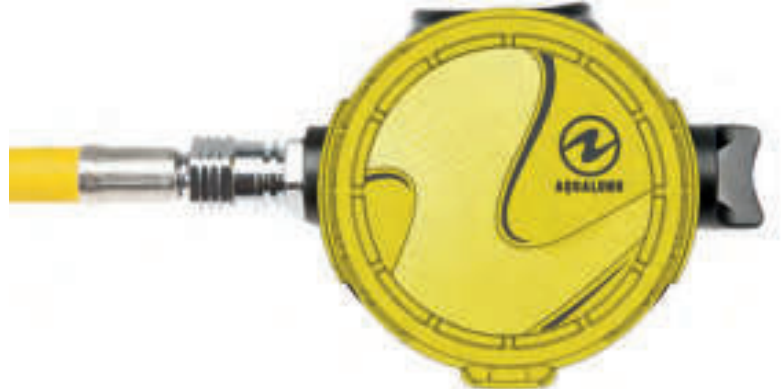

New color

## Calypso Octopus

CALYPSO OCTOPUS RS137111

Compliment your **Calypso** and **Titan** regulators with this reliable, easy breathing octopus.

### Technical Features

- Mid-size, high performance octopus to compliment the Titan and Calypso regulators
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency
- The venturi lever prevents unwanted freeflow when not in use
- Easy purge front cover
- Not recommended for overbalanced regulators of the Legend series.

New color

## LEG3ND Octopus

LEG3ND OCTOPUS RS119005

The **Leg3nd Octopus** provides the same great performance as the **Leg3nd** primary second stage.

### Technical Features

- The LEG3ND octopus is pneumatically-balanced resulting in smooth and easy breathing
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency.

**New product** **Helix Pro Octopus**

HELIX OCTOPUS RS144001  
 HELIX PACK 4 OCTOPUS RS144002

The **Helix Pro octopus** provides the same great performance as the Helix Pro primary second stage.

**Technical Features**

- The Helix octopus is pneumatically-balanced resulting in smooth and easy breathing
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency

**Mikron Octopus**

MIKRON OCTOPUS RS125111

Whether you own a **Mikron** regulator or not, this travel friendly octopus is the one you want to take on your next dive trip.

**Technical Features**

- Pneumatically-balanced octopus is ideally suited for over-balanced first stages
- An inhalation effort adjustment knob allows you to desensitize the unit while it's stowed for the dive preventing unwanted freeflow
- High visibility 39" braided, yellow hose and high visibility yellow cover makes it easy to locate in an emergency."

## Z Valve

Simple one outlet valve. Can be used in yoke configuration up to 232 bars or DIN to 200 bars. Manufactured from quality brass which meets the very strict NFA51105 standard that warrants a very low level of impurities. It received a multi-coat plating with a final coat of chrome. Thanks to an insert it can easily be converted from yoke (INT) to DIN connection.

## Tag Valve

Two outlet valve. Can be used in yoke configuration up to 232 bars or DIN to 200 bars. Manufactured from quality brass which meets the very strict NFA51105 standard that warrants a very low level of impurities. It received a multi-coat plating with a final coat of chrome. Thanks to an insert it can easily be converted from yoke (INT) to DIN connection.

The sale of maintenance kits is reserved for professionals identified by Aqualung. The sale of maintenance kits to untrained and unqualified individuals is prohibited.

**BCD'S<sup>®</sup>**

102

**Through decades of design innovations and technological leadership, Aqualung has perfected a diverse line of buoyancy compensation products that exceed the needs and expectations for all levels of divers.**

**Aqualung has perfected BCD design styles for jackets, back- and hybrid inflation for recreational and professional scuba divers alike.**

# Modlock™ System

Aqualung's patent-pending **Modlock™** connectors revolutionize the way we look at BCDs. Thanks to a round clipping design and 27 sizes configurations, the Modlock™ allows you to fully customize your BC for the perfect fit and needed accessories. Beyond picking our base components such as the back pad, the waistbands, and the shoulders straps available in 3

sizes, you can add up a range of optional accessories such as different sized trim pockets or an SMB holder. Unlock each component in a matter of seconds to reduce volume for transportation or adapt your configuration before going diving. You won't need a special tool to do it, a simple pen or key works.

# Wrapture™ Harness System

The cylinder is in perfectly vertical position

The valve retention strap pulls the cylinder on the upper part

A specialized thin Backplate which keeps the cylinder close to the diver's gravity

The **Wrapture™** Harness System provides comfort and stability. The Backplate is very thin to keep cylinder close to the center of gravity of the diver. It lowers the tank band and places it next to the waistband to keep primary weight on the hips as opposed to the shoulders and it laterally stabilizes the cylinder to keep it from swinging. The Valve Retention Strap pulls top of cylinder in close which shifts the weight downwards while taking stress off the shoulders. Thus the cylinder remains perfectly vertical. Note: Do not

tighten all the way, just enough to keep cylinder vertical. A sheet of LDPE (low density polyethylene) wraps around the diver's body for comfort and stability. It works in conjunction with the shoulder swivel buckles (patented) and supports the weight pockets. Keeping the back pad pulled in against the back it prevents ride-up. The swivels shoulder buckles allow shoulder strap to swivel backwards so that it can run under the diver's arm. The strap remains flat against the body and prevents ride-up of the BC.

*There are several key elements that make up the Wrapture™ Harness System:*

- A specialized Backplate
- Tank band (location)

- Valve retention strap
- LDPE support (low density polyethylene)
- Swivel shoulder buckles (patented)

Easy leveling on the hips

All BCs with i3 technology do have an oral inflator in addition

## i3 Technology

**Innovative - Intelligent - Intuitive**

- The **i3 technology** is a single touch control for both inflation and deflation.
- Intuitive control lever – lift up to inflate, pushed down to deflate.
- Tactile lever is easy to locate because the i3 never moves like a traditional inflator at the end of a floppy hose.
- When the levered is moving down, it opens all of the flat e-valves at once.

# BC size guide & lift capacity

 WHITE	BC1540109
 BLACK / DARK GREY	BC1540112

Created for anyone who wants to fully customize their dive gear, the **Omni** is a revolutionary jacket-style BCD designed to fit your specific style and size. Bringing ModLock™ technology popularized by our Rogue & Outlaw BCD's connector system, the **Omni** allows you to choose from 3 universal sizing components: for your back, your shoulders and your waist,

allowing for dozens of size combinations. Continue your customization by choosing from multiple accessory options and 6 color kits. This is the ideal platform to create a personalized BC with perfect fit and your choice of color!

## Technical Features

- Customizable jacket style BCD with the most desired features: zippered pockets, stainless steel D-rings, octo holder & knife attachment point.
- **PATENTED SURELOCK II WEIGHT SYSTEM** allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- Color kits available in **6 options** with the following components: back pad, reusable mesh bag, Surelock II weight pockets, octo pocket, console holder, inflator hold down, zipper pulls, and chest strap slider.
- **MODLOCK™** connectors allow for interchangeable back, shoulders and waist strap components to create dozens of possible sizes and configurations.

You're an accomplished diver who knows exactly what you want. The **Rogue** BCD is the perfect blend of personalization and minimalist design: all the features you need, none of the fluff you don't. Unique ModLock™ connector system makes possible 27 different configurations for your most comfortable fit. Your dive. Your way. Go **Rogue**.

## Technical Features

- Minimalist, Not Minimized No-fuss design retains essential features: pockets, stainless steel D-rings, octo holder, knife attachment point.
- **MODLOCK™** connectors allow for interchangeable back, shoulders and waist strap components to create dozens of possible sizes and configurations.
- **BLADDER RETRACTION SYSTEM** BLADDER retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.
- **PATENTED SURELOCK II WEIGHT SYSTEM** single-pull weight release with patented SureLock II Mechanical Weight Release System.

Super-streamlined, durable, and full-featured, the **Axiom** BCD combines comfort, fit, and performance for your dives. An ADV-style, wrap-around jacket with Aqualung's proprietary GripLock tank band and SureLock II integrated weight system. Plus, its Wrapture harness system distributes weight so well, you can walk upright while out of the water.

## Technical Features

- WRAPTURE HARNESS SYSTEM**  
 Patented swivel shoulder buckles and ultra-thin back plate provide unsurpassed comfort and prevent the BCD from riding up on the surface. Out of the water, the system allows you to stand up straight by keeping the cylinder close to your center of gravity and transferring the weight to your hips.
- PATENTED SURELOCK II WEIGHT SYSTEM**  
 Single-pull weight release with patented SureLock II Mechanical Weight Release System.
- GRIPLOCK TANK BAND'S**  
 Finger-saver feature and macro presets create an easy and safe solution for securing and detaching your cylinder.
- BLADDER RETRACTION SYSTEM**  
 Pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

# Axiom i3

	XS	SM	MD	ML	LG	XL	2XL
BLACK	BC1310110XS	BC1310110S	BC1310110M	BC1310110ML	BC1310110L	BC1310110XL	BC1310110XXL

The **Axiom i3** is our most comfortable and easy-to-use BCD yet. It is a feature-rich, ADV style, wrap-around jacket that incorporates the innovative i3 inflation/deflation system. The integrated Wrapture harness system allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. Diving has never been this comfortable.

## Technical Features

- THE I3 CONTROL SYSTEM (patented)**  
 provides single touch control for inflation and deflation.
- GRIPLOCK TANK BAND'S**  
 finger-saver feature and macro presets create an easy and safe solution for securing and detaching your cylinder.
- WRAPTURE HARNESS SYSTEM**  
 patented swivel shoulder buckles and ultra-thin back plate provide unsurpassed comfort and prevent the BCD from riding up on the surface. Out of the water, the system allows you to stand up straight by keeping the cylinder close to your center of gravity and transferring the weight to your hips.
- PATENTED SURELOCK II WEIGHT SYSTEM**

BLACK / CHARCOAL	BC1420110XXS	BC1420110S	BC1420110M	BC1420110ML

Our most luxurious BCD and designed specifically for women, the **Soul i3** comes equipped with our intuitive i3 inflation system. Now you can inflate and deflate your BCD with the simple press of a button to find and maintain perfect buoyancy. In addition to the i3, the Soul comes loaded with a host of other features including our patented Wrapture Harness system that positions your scuba tank in a much more natural and comfortable position.

## Technical Features

- **THE I3 CONTROL SYSTEM** (patented) provides single touch control for inflation and deflation.
- The low profile flat e-valves (patented) all open simultaneously when the i3 lever is pushed down.
- **WRAPTURE HARNESS SYSTEM**  
Patented swivel shoulder buckles and ultra-thin back plate provide unsurpassed comfort and prevent the BCD from riding up on the surface. Out of the water, the system allows you to stand up straight by keeping the cylinder close to your center of gravity and transferring the weight to your hips.

LIGHT CORAL	BC1640194XS	BC1640194S	BC1640194M	BC1640194ML

Strong. Sleek. Secure. The Pearl is a wrap-around, jacket-style BCD designed to fit the female diver. With its adjustable waistband and specially curved shoulder straps, you can customize it for a perfect fit. Plus, its lower profile lobes and shorter torso length help it rest comfortably on the hips.

**Technical Features**

- **HYBRID JACKET ADV-STYLE** jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface.
- **PATENTED SURELOCK II WEIGHT SYSTEM**  
Single-pull weight release with patented SureLock II Mechanical Weight Release System
- **OCTO POCKETS** Two octo-pocket locations for versatility: right lobe and top of front lobe.
- **Gear Up!** Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy..

# Pro HD Compact

	XXS/XS	SM/MD	MD/ML	XL/XXL
ORANGE	BC16501082XSXS	BC1650108SM	BC1650108MLL	BC1650108XLXXL

Tired of paying excess baggage fees? This ultra-light, weight-integrated, back-inflation BCD is everything you need without extra weight or bulk. Lift it and feel for yourself that even a ML/LG weighs less than 4.75lb/2.2kg with airway and weight pockets included! Can be packed flat or rolled. The perfect BCD for travel.

## Technical Features

- Innovative tank support system eliminates the need for a hard pack.
- A valve strap pulls the top of the cylinder in towards the center of gravity transferring the load to the hips and relieving the shoulders.
- **PATENTED SURELOCK II WEIGHT SYSTEM** single-pull weight release with patented SureLock II Mechanical Weight Release System.
- Great packability – flat or rolled.

## Dimension

	SM	MD	ML	LG	XL
BLACK	BC1340110S	BC1340110M	BC1340110ML	BC1340110L	BC1340110XL

Our high standards put the **Dimension** far above the standards in back inflation-style BCDs. This BCD incorporates our Wrapture harness system and SureLock II mechanical weight release system, and is made of specially developed ResisteK material to stand up to the most rugged conditions in salt or chlorinated water without fading or abrasion.

## Technical Features

- **WRAPTURE HARNESS SYSTEM** patented swivel shoulder buckles and ultra-thin back plate provide unsurpassed comfort and prevent the BCD from riding up on the surface. Out of the water, the system allows you to stand up straight by keeping the cylinder close to your center of gravity and transferring the weight to your hips.
- **GRIPLock TANK BAND'S** finger-saver feature and macro presets create an easy and safe solution for securing and detaching your cylinder.
- **PATENTED SURELOCK II WEIGHT SYSTEM** Single-pull weight release with patented SureLock II Mechanical Weight Release System.
- **BLADDER RETRACTION SYSTEM** Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag.

# Lotus

**Our philosophy of  
'Complex Made Easy'  
is clearly evident throughout  
our entire instrument range.**

**With a new Aqualung dive  
computer, today's divers have an  
unlimited wealth of convenient,  
easy-to-use technology and  
connectivity at their fingertips.**

**Our dive instrumentation  
is simplified, accurate and  
reliable for safe exploration  
and new discoveries.**

## Diverlog+ App

**Staying connected** and managing your dives has never been simpler! **Wireless Bluetooth Smart connectivity** lets you wirelessly sync your dive data with the **DiverLog+ app** on your mobile device (available for iOS and Android). With your **DiverLog+ app**, you can remotely control all your dive computer settings, view dive log and profile data, add locations, notes and other details from your adventures. After your dive, **share your memories**, stats, photos, and dive site locations on social media.

-  Download dive data directly from any **Aqualung** Bluetooth enabled dive computer, upload your desired settings direct from a mobile device to Dive Computers, and update firmware to Dive Computers using **Bluetooth Smart technology**
- Stay connected with the **Diverlog+ app**! Share your dive info, photos, and video links directly to your social media channels and make all your friends jealous of your epic dives
- Record all your dive data effortlessly including, elapsed time, conditions, computer settings, tank types and sizes, location, dive site, dive buddies, and gear used
- Electronic dive log signature function allows buddies and instructors to electronically sign your dive log
- Simple search methods help you easily access all your **recorded data**. Search by location, dive site, and even which computer you used!
- Easily maintain and access your personal certification and medical information so your important data is on hand at all times
- Keep track of your dive gear with the customizable digital gear bags feature
- Synchronize your data between Diverlog Desktop, **Diverlog+ app**, and the **DiveCloud online** dive data backup system, so you can access your dive records anywhere
- Export your dive data in various formats for easy review and documentation
- Review your dive profile in real time

# The Aqualung Difference

Aqualung controls all **aspects of design**, development and manufacturing of our dive instrumentation. We do this to ensure we have high **quality products** that our divers can rely on. Because of this commitment, you will find this **Aqualung Difference** throughout our product line.

- Our technology ensures that once set, your transmitter is permanently paired to your computer and you will not experience the frustration of a lost pairing underwater
- To ensure accuracy and reliability in our analog collection, Aqualung goes well above the industry standard in utilizing the highest-quality Swiss-manufactured Bourdon tubes
- Most of our computers are specifically designed with user-replaceable batteries for your convenience.
- We have a team dedicated to the development of our industry-leading DiverLog and DiverLog+ softwares. This allows a seamless user experience of the Aqualung computers with the available app and software

Our **2-gauge** console includes a Pressure Gauge, Depth Gauge and Writing Slate. Designed with ease-of-use and simplicity in mind, the pressure and depth gauge displays are designed with such features as a luminescent gauge face for easy reading in low light. In addition, the **2-gauge** console can be easily upgraded in the future with the addition of a Compass.

### Technical Features

- Easy-to-read scale up to 5,000 PSI / 350 bar rated
- Luminescent gauge face for easy reading in low light
- Integrated temperature scale
- Nitrox compatible up to 50%
- Swiss made, shock resistant Bourdon tube
- Oneway safety valve
- Hose length is 36" / 91.44cm

## Console, 3-Gauge

DEPTH GAUGE MODULE, 60M	NS114114

The Aqualung **Depth Gauge**, with its specially designed depth scale and luminescent gauge face, allows for easier reading at a glance.

## Technical Features

- High fidelity depth scale provides easier reading at shallow depths
- On the wrist mount version the strap is designed to fit a variety of wrist sizes and wet/drysuit meters
- Maximum depth indicator
- Luminescent gauge face for easy reading in low light
- Wrist mount boot allows for future upgrades to the i300C dive computer module
- Available in imperial or metric

# Transmitter

TRANSMITTER NS119113  
 TRANSMITTER O2 CLEAN NS119114

Aqualung's **Transmitters**, used in conjunction with a compatible wrist computers, allow you to monitor current pressure and gas time remaining without a stiff high pressure hose, while providing a more streamlined profile.

## Technical Features

- Hoseless Gas Pressure Transmission for the i450T, i470TC, i750TC, i770R and i770Rtx
- Once set, the transmitter is permanently paired and will not accidentally pair with other computers
- Battery is user changeable and commercially available
- Nitrox compatible up to 40%

# Custom Lenses

Our latest models offer a choice of custom lenses to enhance your **visual experience underwater**.

Choose your custom lenses based on your most common diving conditions.

**Clear**  
Standard clear lens.

**Mirror**  
This lens reduces reflection and glare, making it ideal for conditions with high light levels in shallow water or a sandy seabed.

**Ultra Clear**  
Compared to standard glass, there is no green tint to be seen. This glass is clear to the edge. It renders colors, textures and shapes with impressive clarity.

**Blue HD Mirror**  
The specific tint highlights warm colors underwater, providing improved contrast and enhance depth and color perception. The mirror coating helps to reduce glare. Use these lenses for bright, sunny conditions.

New color

## Teknika

Made in Italy

- BLUE MS1674040
- WHITE MS1670909
- BLACK MS167111
- WHITE / PETROL MS1670998LR

Ultra Clear

Designed and built for rigors of technical diving, this dual-lens mask offers rugged durability and superior strength. Its two-piece shock-resistant frame is assembled with AISI 304 stainless hardware that won't corrode. Features an excellent field of view and dark skirt for eliminating distracting light, which reduces eye fatigue during long dives.

### Technical Features

- Shock-Absorbing techno-polymer frame stands up to abuse on the dive deck and in the water
- Superior Headpiece Fit: The wide headpiece on the Teknika's silicone strap conforms to your head to ensure a comfortable, secure fit
- Folds Flat: The mask skirt and unobtrusive buckles fold flat for easy storage in your BCD or wetsuit pocket, making it ideal for use as a back-up mask
- Natural Skirt Fit: High-grade silicone facial skirt flexes to mold naturally along the contours of your face for a comfortable, leak-free seal
- Cardanic Joint Buckles: The joints between the mask and strap rotate in both vertical and horizontal directions for a customized, pinch-free fit

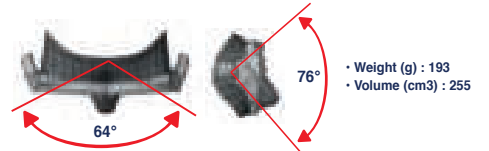

New color **Plazma** *Made in Italy*

● NAVY / SAND	MS3930496LR
● DARK OLIVE / WHITE	MS3933209LC
● YELLOW / WHITE	MS3937309
● TRANSP / BLACK	MS393115
● TRANSP / PINK	MS393114
● WHITE / YELLOW	MS393113
● BLUE / WHITE	MS393111
● BLACK / WHITE	MS3930109LR
● PETROL	MS3939898LR
○ WHITE	MS3930909LR

For new and experienced divers, the **Plazma** is the only frameless panoramic diving mask that delivers a perfect fit with excellent comfort from surgical grade premium silicone and enhanced stability zones. The **Plazma** mask delivers a lightweight and compact, low-profile design in fresh, exciting color combinations.

### Technical Features

- **Frameless Design:** Frameless design delivers lower volume, greater flexibility, and a lighter weight. That makes the Plazma great for traveling because you can crumple the skirt right against the faceplate
- **Comfortable Fit:** Pressure reduction zones are incorporated into the silicone skirt at strategic points to help relieve the pressure of the mask on long dives. This engineered design utilizes these reinforced zones to improve also skirt stability at traditional weak points
- **Ultra clear Lens:** Ultra Clear lens for a better visibility
- **Perfect Fit:** Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel

New color **Linea** *Made in Italy*

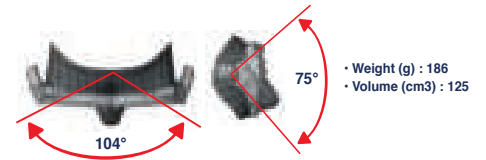

- BLACK / BLACK SIL MS144114
- PINK / CLEAR SIL MS144113
- SAND MS1449696LC
- PETROL MS1449898LC
- WHITE MS1440909LC

The women at Aqualung put their heads together and gathered female divers' input to design an unsurpassed women's mask: a wide-angle view in an ultra-compact, low-volume, low-profile package. Enjoy a Comfort Buckle System that's tangle-free and Advanced Fit Technology, minimizing the lines left on your face after a dive.

## Technical Features

- **Comfort Buckle System:** Prevents diver's hair from getting tangled in the buckles
- **Low-Volume, Dual-Lens Design:** This mask is quick and easy to clear, and you'll hardly feel any upward pull. Its compact shape reduces drag and improves stability, especially beneficial when diving in strong currents
- **Advanced Fit Technology (AFT):** Skirt features differently textured bands of silicone to form a superior seal and maximum comfort.
- **Cardanic Joint Buckles:** The joints between the mask and strap rotate in both vertical and horizontal directions for a customized, pinch-free fit
- **Tempered Glass Lenses:** For your safety and the mask's longevity, the lenses are made of tempered glass to guard against cracks and shattering, even under pressure and stress. Meets ANSI standards

New color **Reveal X1**

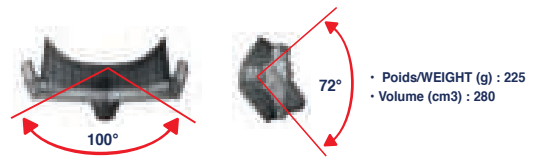

-  RED / BLACK SIL MS1920106
-  WHITE / BLUE SIL MS1924009
-  HOT LIME / CLEAR SIL MS192112
-  PINK / BLACK SIL MS192119
-  BLACK / BLACK SIL MS192115
-  SAND / WHITE MS1929609LC
-  BLACK / WHITE MS1920109LC

A design based on years of research and testing, the **Reveal** is full of innovative features that make it our most comfortable and best-fitting mask. Explore the wonders of the silent world in this premium mask that delivers a perfect, leak-free fit.

**Technical Features**

- **Universal Advanced Silicone Skirt (UASS):** Innovative wrap-around geometry in a new grade of crystal-clear silicone provides the optimal fit and comfort for a wide range of face shapes and sizes
- **Advanced Fit Technology (AFT):** Skirt features differently textured bands of silicone to form a superior seal and maximum comfort
- **Split Strap:** Unique to the Reveal, this innovative split head strap design is longer around the middle to perfectly and comfortably accommodate the spherical shape of the head and keep the strap securely in place
- **Lightweight:** So lightweight, in fact, that the single-lens version (X1) is the lightest single-lens framed diving mask on the market

New color

## Reveal X2

-  WHITE / BLUE SIL MS1934009
-  BLACK / BLACK SIL MS193115
-  HOT LIME / CLEAR SIL MS193112
-  BLUE / CLEAR SIL MS193111
-  BLACK / ORANGE MS1930108LC
-  RED / WHITE MS1930609LC
-  PETROL / WHITE MS1939809LC

A design based on years of research and testing, the **Reveal** is full of innovative features that make it our most comfortable and best-fitting mask. Explore the wonders of the silent world in this premium mask that delivers a perfect, leak-free fit.

### Technical Features

- **Universal Advanced Silicone Skirt (UASS):** Innovative wrap-around geometry in a new grade of crystal-clear silicone provides the optimal fit and comfort for a wide range of face shapes and sizes
- **Advanced Fit Technology (AFT):** Skirt features differently textured bands of silicone to form a superior seal and maximum comfort
- **Split Strap:** Unique to the Reveal, this innovative split head strap design is longer around the middle to perfectly and comfortably accommodate the spherical shape of the head and keep the strap securely in place
- **Lightweight:** So lightweight, in fact, that the single-lens version (X1) is the lightest single-lens framed diving mask on the market

# Look

-  BLACK / CLEAR SIL MS145113
-  BLACK / BLACK SIL MS145111
-  HOT LIME / CLEAR SIL MS145114
-  METALLIC BLUE / CLEAR SIL MS145115
-  BLACK / YELLOW MS1450107LC

The **Look** mask is a rugged, classically styled two-lens mask, while the frame and skirt are designed to fit a wide range of facial types. The **Look** skirt has been updated with the Advanced Fit Technology (AFT), which uses bands of textured silicone around the edge of the skirt resulting in a superior seal against the face.

## Technical Features

- Double lens, 3 mm tempered glass. New twin buttons seeger release system, it make glass locking rings removal quick, safe and easy
- Cardanic joint buckles (double joint buckles) rotate both up- and-down and in-and-out
- Quick counterposed push button activation is easy to use even when wearing gloves
- Wide headpiece on silicone strap provides stability and comfort
- Weight: 185 gr

New color **Sphera X**

- WHITE / BLACK MS4700901
- NAVY / BLUE MS4700404
- BLACK MS4700101
- BLACK / SAND MS4700196LC
- TRANSP / WHITE MS4700009LMR
- WHITE / GOLD MS4700975LMB
- WHITE / PETROL MS4700998LC
- WHITE / YELLOW MS4700973

The New **Sphera X** is the next generation Sphera, the number one freediving mask by Aqualung. The unique distortion-free lens technology provides a 180 degree wide-angle field of vision and let the user experience a panoramic vision that's pure freedom for the eyes. The mask also features a new silicone skirt, an attractive lightweight frame structure and an easy-to-adjust micro buckle system. It comes in a heavy-duty zippered EVA Case, not only to protect the Plexisol™ lenses but also to eliminate plastic packaging.

## Technical Features

- 180° distortion-free panoramic vision thanks to the exclusive curved Lens Technology
- Advanced Fit Technology (AFT) enhancing the sealing features of the silicone skirt, improving fit, comfort and feel
- Plexisol lenses with special anti-fog and anti-scratch benefits
- An innovatively shaped strap better forms to the diver's head, increasing comfort and provides a more secure fit

**New product** **Micromask X**

-  RED / BLACK MS5150601LR
-  BLUE MS5154040LR
-  BLACK MS5150101LR
-  WHITE / BLACK MS5150901LR

A revolutionary mask design that positions the lenses within your ocular orbit (the natural facial recesses of the eyes). This results in significantly improved peripheral vision and an incredibly low internal volume. Plus, patented **Micromask** technology reduces frame bulk for a low profile, reducing drag.

**Technical Features**

- Patented Micromask Technology: The use of a single-piece lens, skirt, and frame allows the lenses to be placed close to the face for vastly improved field of view
- Push-Button Strap Security: Counterposed push-button activation makes strap adjustment fast and holds the strap securely in place once set. Easy to use, even while wearing gloves
- Natural Skirt Fit: High-grade silicone facial skirt flexes to mold naturally along the contours of your face for a comfortable, leak-free seal
- Low-Volume, Dual-Lens Design: This mask is quick and easy to clear, and you'll hardly feel any upward pull

**New color** **Mistique DS**

-  WHITE / PETROL MS5160998

The Aqualung **Mistique** is hard frame single lens mask that offers an uninterrupted field of vision. Its low volume and has a stylish unique shape. It comes with easy to operate flexible joint buckles and complimented by the 3D strap.

All packaged in a luxury zippered Aqualung branded laminated fabric case. The **Mistique** is available in two lens options: the "Plus" and the "Blue" HD Mirror lens.

**Technical Features**

- Single lens mask with exceptional field of vision
- Low Profile makes it easy to clear
- Anti-fog coating to aid for crystal clear viewing
- Buckle to skirt so you can fold the mask flat for storage in BCD or suit pocket
- 3D mask strap to perfectly and comfortably fit the diver's head and keep the strap securely in place

New product **Duetto** *Made in Italy*

- NAVY / ORANGE MS4800408LC
- TRANSP / YELLOW MS4800007LC
- TRANSP / BLUE MS4800040LC
- BLACK MS4800101LC

Diving mask with maximum comfort and a large field of vision.

## Technical Features

- Hypoallergenic Silicone face skirt provides ultimate comfort
- Durable tempered glass lenses
- Reusable mask case

## Purge System

From the twin elliptical silicone purge valves on the Aquilon **Purge** to the single valved solutions on the Zephyr and Zephyr flex you gain an efficient draining snorkel. To give you a safe dry and comfortable breath. All our splash guards feature a purge channel to allow the majority of the water to escape directly.

*Twin elliptical silicone purge valves*

*Purge channel splash guard*

## Comfo-Bite™ Mouthpiece

The Patented **Comfo-Bite™** Mouthpiece is constructed of hypoallergenic silicone to reduce fatigue and is also available in a midi version and can be easily replaced.

New color

## Zephyr Flex

	HOT LIME / BLACK	SN135113
	BLUE / BLACK SIL	SN135112
	BLACK / BLACK SIL	SN135111
	PETROL / WHITE	SN1359809
	BLACK / ORANGE	SN135114
	BLACK / SAND	SN1350196

### Technical Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging
- The anatomically-designed mouthpiece made from medical grade silicone reduces jaw fatigue
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face

New color

## Mid foot pivot technology

Aqualung's Mid-foot pivot patented technology links the blade to the middle of the foot pocket through two pivot points. This allows the foot and toes to keep the natural stable position while keeping a wide range of motion in the blade. The result is more comfort, energy, control and efficiency.

## Wave Rib technology

The elastomer rubber sections of the side ribs work together with the wave-shaped structures, accumulating (loading) the energy of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick.

## Strap & bucles system

Our buckles and straps are fitted to the fin using a mushroom fitting, this aids the buckle in both being fully secure while still being able to rotate in all directions no matter what force is applied. The straps used are varied from our Silicone Bungee to stainless steel springs to our made in house polymer straps.

\*suited for special boots

We expect you'll increase your skill as you progress in diving. That's why the Phazer fin, with its revolutionary composite wave rib technology, is designed to provide balance and power for any experience level. The Phazer uses a tri-material construction and advanced water channel system to optimize energy with every kick.

## Technical Features

- **Wave Rib Technology:** The revolutionary side ribs are made of elastomeric rubber sections and firmer wave-shaped structures to load and release energy at precise moments during the kick cycle.
- **Hydro Power Vent:** Water can flow through the blade, along the channel in front of the foot pocket. This enhances efficiency, power, and stability for every diver, from student to pro.
- **Improved Hydrodynamics:** The soft TPR membrane on the blade channels water for improved hydrodynamics during both the power stroke and recovery portions of the kick cycle.
- **Tri-Material Construction:** we've optimized every single area of the fin by using materials intentionally: the foot pocket, blade, and side ribs are made with different, specific advanced materials to give you the best performance.

New product

# Storm Max

	S	M	L
	UK 3 - 6 EU 35 - 39	UK 6 - 9 EU 40 - 43	UK 9 - 11.5 EU 44 - 47
ORANGE/WHITE	FA3600809S	FA3600809M	FA3600809L
BLUE/WHITE	FA3604009S	FA3604009M	FA3604009L

BLACK	FA3600101S	FA3600101M	FA3600101L

The Storm Max fins have a bungee straps made for all dive conditions. Each size has it's own color coding for easier recognition and each fin has a hole in the paddle for easy transport and storage. Produced using Monprene®, a single material construction, gives both durability and strength. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for sizing.

## Technical Features

- Open heel fin, made in a single TPV compound Monprene
- Ergonomic foot pocket ensures comfort and prevents fatigue
- Silicone bungee strap equipped for easy on-and-off
- Strong blade aids in efficient power transfer
- Simplified size identification by color-coding on a blade insert

# Shot Fx Made in Italy

	S	M	XL
	UK 3 - 6 EU 35 - 39	UK 6 - 9 EU 40 - 43	UK 9 - 11.5 EU 44 - 47
● WHITE ARTIC	FA166114	FA166115	FA166116
● TWILIGHT	FA166111	FA166112	FA166113

The Shot FX Fins have the Power Zone, located in front of the foot pocket, the diver a mid-foot pivot point on the fin, minimizing fatigue and maximizing energy transfer to the blade. The foot pockets are specifically sized for women and the blade stiffness increases with size. This offers women divers their choosing of blade stiffness, depending on their style of diving.

## Technical Features

- The foot pocket's design, compounds and sizing are dedicated to women's feet resulting in greater comfort.
- The Shot FX has a dedicated blade that is shorter and softer than traditional fins. This makes them easier to kick
- A spring strap offers a soft heel pad along with Aqua Lung's own proprietary buckles
- The foot pocket is equipped with the "Power Transmission Zone" This anchors the foot preventing unnecessary stretching of the foot pocket on the power stroke resulting in maximum energy transmission
- An elastic blade insert creates a "spoon effect" that pushes more water with each down stroke adding to efficiency
- A customized inner sole provides a grip effect. This prevents wasting power from the boot moving laterally inside the boot pocket

# Express Made in Italy

	EU 36/37	EU 38/39	EU 40/41	EU 42/43	EU 44/45	EU 46/47
● BLACK / WHITE ARTIC	FA155111	FA155112	FA155113	FA155114	FA155115	FA155116
● BLACK / SILVER	FA155131	FA155132	FA155133	FA155134	FA155135	FA155136
● BLACK / BLUE	FA155117	FA155118	FA155119	FA155121	FA155122	FA155123

Goodbye, surface ... with the efficiency of the Express, you can stay submerged until you forget the rest of the world exists. Its armadillo hinge made of grooved elastic material at the base of the blade absorbs energy during the power stroke and releases it at the end of the kick cycle. You'll go farther with reduced strain on your legs and feet.

## Technical Features

- Armadillo Power: Our Armadillo Hinge at the blade base absorbs energy on the downstroke and releases it on the upstroke, giving you a power boost on every kick.
- Full-Pocket Design: High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water.
- Hydrodynamic: The rubber side ribs channel water down the length of the fin to reduce drag and maximize the efficiency of your kick.
- Reduced Strain: This fin's mid-foot flex joint attaches the blade to the side of the foot pocket to aid in energy transfer and reduce strain on your ankles and toes.

## EXPRESS ADJ

	S	M	L
	UK 3 - 6 EU 35 - 39	UK 6 - 9 EU 40 - 43	UK 9 - 11.5 EU 44 - 47
 HOT LIME	FA156126	FA156127	FA156128

 WHITE ARTIC	FA156123	FA156124	FA156125
 BLUE	FA156113	FA156114	FA156115

Same great features as the Express but with an open foot pocket to wear with booties. Its armadillo hinge made of grooved elastic material at the base of the blade absorbs energy during the power stroke and releases it at the end of the kick cycle for a more efficient kick and reduced strain. Includes Spring Straps for easy on/off.

### Technical Features

- **Armadillo Power Our:** Armadillo Hinge at the blade base absorbs energy on the downstroke and releases it on the upstroke, giving you a power boost on every kick
- **Hydrodynamic:** The rubber side ribs channel water down the length of the fin to reduce drag and maximize the efficiency of your kick
- **Full-Pocket Design:** Foot pocket is made of soft material of varying elasticity for comfort and efficiency
- **Reduced Strain:** This fin's mid-foot flex joint attaches the blade to the side of the foot pocket to aid in energy transfer and reduce strain on your ankles and toes

# Stratos Adj

	S	M	L
	UK 3 - 6 EU 35 - 39	UK 6 - 9 EU 40 - 43	UK 9 - 11.5 EU 44 - 47
 HOT LIME	FA169121	FA169122	FA169115
 BLUE	FA169113	FA169119	FA169114
 BLACK	FA169111	FA169118	FA169112

Kick it like a pro, even if it's your first dive: the Stratos ADJ is designed for ease, with responsive, dual-material side ribs and blade to help you get the most out of your kick. The blade quickly reaches the optimal angle needed to move water quickly and efficiently. This is a strap-style fin for easy adjustment.

## Technical Features

- Ergonomic Straps: Ergonomic straps let you adjust the size for your perfect fit. Easy to operate, even while wearing thick gloves
- Maximum Efficiency: Softer materials hold your foot while a more durable material is precisely placed to prevent the fin from stretching during the crucial power stroke of the kick cycle
- Optimal Positioning: Flexible material between the blade and pocket aids in positioning of the fin for maximum propulsion

The Storm is a great all-around fin ideal for travel. Produced using Monprene®, a single material construction gives both durability and strength while maintaining exceptionally light weight, exactly what the traveling diver requires. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for adjustments. Available for juniors and adults.

## Technical Features

- Barefoot open heel fin, made in a single TPV compound Monprene®
- Ergonomic foot pocket ensures comfort, freedom and prevents fatigue
- Silicone bungee strap equipped with heel pad for easy on-and-off
- Strong compact blade aids in efficient power transfer
- Access hole in the blade for easy transport and storage

# Stratos 3

	EU 36/37	EU 38/39	EU 40/41	EU 42/43	EU 44/45	EU 46/47
 HOT LIME	FA172124	FA172125	FA172126	FA172127	FA172128	FA172129
 BLUE	FA172137	FA172138	FA172139	FA172141	FA172142	FA172143
 BLACK	FA172111	FA172112	FA172113	FA172114	FA172115	FA172116

The best all-around full-foot fin for warm water. And it's so durable, it passed every anti-shock and stress test we subjected it to! But Stratos 3 doesn't compromise on price or comfort: it's lightweight and affordable. The four-channel structure forces water to flow along the blade for heightened swim performance.

## Technical Features

- **Torsion Energy Point:** We targeted the bending point in this fin and moved it backward to create a more powerful kick with less effort
- **Full-Pocket Design:** High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water
- **Stable Fit:** Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin
- **A Blade Designed for Power:** Made of strong and elastic technopolymers, this blade has a four-channel structure for better hydrodynamics and side wings to enhance swim performance and stability

## Wind Made in Italy

A full-pocket, entry-level fin that's ideal for your next scuba or snorkeling adventure. Lightweight yet robust, compact yet comfortable, this fin is ideal for travel. Enjoy the ergonomic foot pocket designed for the anatomy of the foot. This fin features a rigid sole for optimal foot protection and smooth power transition to the blade.

### Technical Features

- Full-Pocket Design: High comfort, no booties required. Full-pocket fins give you increased perception of your kicks effect on the water. Foot pocket is made of soft material for comfort
- Stable Fit: Grip on inner sole ensures stability by preventing your feet from sliding around inside the fin. This means you're less likely to lose your fin or waste energy from your foot moving inside the pocket
- Responsive, Dual-Material Construction: Blade is made of lightweight polypropylene with rubber inserts for durability and elasticity. Structured side ribs ensure progressive, controlled flexing of the fin
- Rigid Sole: The rigid sole offers optimal foot protection and smooth power transition to the blade

# Cyclone X

	EU 36/37	EU 38/39	EU 40/41	EU 42/43	EU 44/45	EU 46/47
○ WHITE	FA36201093637	FA36201093839	FA36201094041	FA36201094243	FA36201094445

New update

# Alaskan

The **Alaskan** is our latest design in trilaminate drysuits. It features a telescopic torso and front zipper that allow the diver to equip himself. The neck and wrist seals are produced in latex and boots have reinforced soles for increased durability.

## Technical Features

- Telescoping torso for ease of donning
- Adjustable crotch strap and suspenders secure suit in place
- Latex wrist & neck seals keep water out
- Spacious pockets with attachment loops
- Durable material overlays in seat and knees for longer life in high-wear areas

# CeramiQskin

Our **CeramiQskin** first layer range is the most advanced Aqualung suit ever designed to assist you in staying warm during dives. It can be used under a drysuit or a wetsuit, or it can even be used alone for warm water dives. The material is an exclusive and technical fabric that gives a high level of thermal protection, zero buoyancy and extreme comfort thanks to the Ceramic technology applied in the tri-laminated fabric. **CeramiQskin** is a blend of Lycra exterior with a breathable Polyurethane (PU) membrane and polar fleece inside.

## Technical Features

- Tri-laminated fabric: Lycra for elasticity on the outside, PU membrane with Ceramic technology in the middle for warm protection, and polar fleece against the skin for warmth and comfort
- Zero buoyancy
- Ceramic technology based from volcanic rocks, reflects infrared rays generate by the body to keep you warmth
- Made in France

Our heat gloves are made using a closed-cell neoprene with gas-filled micro bubbles for outstanding warmth. Palm and finger areas feature Titanium Slick Skin, which dries faster and keeps hands warmer than traditional materials. Backed by Aqualung tech, our 5mm Heat Gloves are the solution to keeping water out and warmth in.

## Technical Features

- Sealed seams provide longevity and superior water tightness
- Lined with Glideskin for ultimate comfort, wet or dry
- Choice of 5mm or 3mm neoprene in 5-finger design for desired cold water insulation
- 6mm neoprene in 3-finger Heat Mitt design provides exceptional cold water insulation

# Environmental friendly features

Aqualung is committed to using environmentally friendly materials and processes whenever possible to help reduce our carbon footprint.

## Rashguards

Our range of rashguards is all for a better protection against UVA and UVB. Thanks to the polyester, they are long lasting in pools and highly chlorine resistant.

## 100% Recycled

The polyester fabric used for our rashguards is 100% sourced from recycled plastic bottles.

Lamination

## Water based Glue

The laminating glue is water-based hence eliminating solvent volatile compounds.

Fabrics

## Dope-Dyed Yarn

Dope-dyeing infuses dye pigments into molten plastic solution to produce colored yarns without dyeing process. This saves tremendous amounts of water while reducing energy consumption and water pollution.

Neoprene Rubber Foam

## Eco Carbon black

Carbo black, one of the key ingredients of neoprene, can now be pyrolyzed from scrap rubber tires. This significantly reduces energy consumption and reduces CO2 emission by 200g per wetsuit.

## Ultra flexible neoprene

Aqualung has innovated its own super-stretch neoprene material called AquaFlex. Used throughout the whole suit, our AquaFlex neoprene has three times the stretch of standard neoprene and is available in our premium wetsuits.

## The eco-friendly alternative to neoprene

**Organiprene** is a composite foam made from a mix of **natural ingredients** from **Yulex** and **recycled materials**. This foam is neoprene free, **85% bio based**. The rubber from Yulex is **ultra pure natural** rubber, non sensitizing and sustainably sourced. It is laminated with **recycled fabric from plastic bottles**.

## 100% Recycled Polyester

The polyester used on our rashguards is **100% sourced from recycled bottles** as well as fabrics used as linings on our diving suits.

YULEX

Organiprene

New color

# Iceland

The dive instructor's favorite semi-dry suit, the **Iceland** gets a fresh new look in 2022. Same technology, new colors. Aqualung's most advanced semi-dry suit, with dry zipper, flexibility and eco-conscious materials. The superfit seals significantly reduce water entry at the neck, wrists and ankles. The inner material is soft to the touch, while the outer material is abrasion-resistant and the 7mm super stretch neoprene provides a new level of warmth. The **Iceland** features multi-panel neoprene design and pre-bent anatomic arms and legs with improved Supratex kneepads that ensure an exceptional fit with excellent range of motion. A large cargo pocket or easy storage and a hook to hang your hood complete the features.

## Technical Features

- Super stretch 7mm neoprene (petroleum free) for maximum comfort and freedom of movement
- Durable TIZIP Dry zipper to limit water entrance
- Cargo pocket for maximum storage
- Liquid fusion seam technology and wrist and ankle cuff seals to limit water entrance
- Removeable hood included
- Abrasion resistant Supratex shoulder and knee prints
- Neoprene collar

New product

## Solaflex

The fans of the SolaFx will not be disappointed by the new **Solaflex**. The **Solaflex** remains Aqualung's most advanced wetsuit by keeping the previous unique features and fit and by improving the warmth. In addition to its 8mm torso and 7mm arms and legs, this new updated version incorporates a fleece liner to provide extra warmth. As with all Aqualung's wetsuits, it has environmentally-friendly features, such as non-P.A.H. (Polycyclic Aromatic Hydrocarbons) neoprene. Unique designs are specially tailored for men and women.

### Technical Features

- Super stretch 8/7mm neoprene (petroleum free) for maximum comfort and freedom of movement
- Canadian cuff
- Liquid fusion seam technology
- Water dam covers neck and shoulder for extra protection
- Warm fleece liner
- Powertex knee protection

# Dynaflex

## Full Suit - Front Zip

The 6.5 mm **Dynaflex** is an full suit for divers who like the simplicity of a front opening and an attached hood. Thanks to the 4-way super-stretch neoprene using Ultraspan™ fabric, double water-seal cuffs, **Dynaflex** provides a perfect fit with maximum comfort and warmth. A removable pocket and a computer attachment on each sleeve are just two of its many plus points.

### Technical Features

- Ultraspan outer fabric and 4-way Super stretch 6.5mm neoprene (petroleum free)
- Constructed using double-glued double blind stitched seams. All internal seams are sealed for superior warmth, comfort and durability.
- Ergonomic panels under the arms for comfortable movement.
- The hood has a seal around the face and a purge system on top to let any trapped air out and stop any water getting in.
- Long YKK n°10 slider on the front, with an inner flap made of smoothskin to limit any cold water getting in.
- Removable mesh 3D pocket on the right thigh, with a net base to drain the water.

# Dynaflex

## Full Suit - Back Zip

This back-zipped wetsuit serves the classic segment of a base layer – with a feature-rich package. Thanks to the 4-way super-stretch neoprene using Ultraspan™ fabric, double water-seal cuffs and a semi-sealed slider closure, the **Dynaflex** provides a perfect fit with maximum comfort and warmth. To make life easier before and after diving, the neck opens using a zipper, this is an amazing feature for when a diver has to sit and wait for the water entry. A removable pocket and a computer attachment on each sleeve are just two of its many plus points that make this suit a complete partner for you and your equipment. Available in 5.5mm or in 7mm.

### Technical Features

- Ultraspan outer fabric and 4-way Super stretch 7mm or 5.5mm neoprene (petroleum free)
- Constructed using double-glued double blind stitched seams. All internal seams are sealed for superior warmth, comfort and durability
- Ergonomic panels under the arms for comfortable movement
- G-Lock zipper on the back combines with a double flap, giving a perfect seal that stops water and cold getting in
- Removable mesh 3D pocket on the right thigh, with a net base to drain the water

## Dynaflex Jacket

The **Dynaflex** concept is completed by the 5.5 mm step-in shorty. For colder water, you can simply add the shorty over your wetsuit to add a layer and maximize the suit concept. In warmer waters, the shorty can be used on its own.

### Technical Features

- Ultraspan outer fabric and 4-way Super stretch 5.5mm neoprene (petroleum free)
- Ergonomic panels under the arms for comfortable movement
- Constructed using double-glued double blind stitched seams. All internal seams are sealed for superior warmth, comfort and durability

## Xscape

With the **Xscape** wetsuits our aim was to design the ultimate eco-friendly wetsuit. These wetsuits use revolutionary Yulex® instead of neoprene, a composite material made of a natural rubber core layer, laminated with water-based glue and a fabric made of recycled plastic bottles. The **Xscape** wetsuits offer enhanced comfort for warm waters between 20 and 28°C (68°F - 82°F). Thanks to the flexible and lightweight material, these 4/3mm wetsuits can also be used for snorkeling, freediving, paddling or any other ocean sport you love.

### Technical Features

- Yulex eco-friendly & neoprene-free composite material: 85% natural rubber & 15% polymer foam. Laminated with solvent free glue
- Warm inner liner made of recycled plastic bottles
- Powertex kneepads for high abrasion resistance combined with excellent flexibility
- All the seams inside are sealed to stop them from bursting making them long-lasting and unbelievably comfortable
- includes reusable mesh bag

# Wave modular system

Our iconic Dive collection is becoming **Wave** in 2022. New name and new color but same functionalities and benefits. The Wave modular wetsuit system provides versatile options that are durable and comfortable. The modular system addresses wetsuit needs for a variety of water temperatures—from 13° to 25°C (55°F -77°F). For colder waters, there is an add-on step-in jacket and an optional hood or the 6mm jumpsuit with hood attached and front zipper. For warmer water, the reversible shorty offers the right solution. Thanks to the high-density neoprene, the size markings inside and outside (one color per size), and the white personal identification field to write the number of the suit along the zipper, the Wave collection provides the perfect solution for intensive use.

## Wave 6mm

### Technical Features

- 6mm high density neoprene (petroleum free)
- Durable thanks to the double-glued, two-thread blind-stitched seams
- All seam junctions are sealed by a small patch to offer superior warmth, comfort and durability
- Ring seals on arms and legs stop water entry
- Ankle zipper on the model with ergonomical hood attached and front zipper
- Supratex knee panel for more durability

# Titanium Shorty

The shorty **Titanium** is designed to be the perfect under garment to be worn under a semi dry suit or a dry suit when water temperature is about 13° to 17°. Thanks to the super stretch 1mm neoprene , it's very comfortable. And the **Titanium** glideskin finishing on the inside will increase the thermal protection. All panels are assembled with flatlock stitching for comfort. V-shaped collar for ease of moment and comfort.

## Technical Features

- 1mm neoprene (petroleum free)
- Inside lined with titanium glideskin
- Used under wet or dry suit
- Unisex

1mm - Unisex

# SkinSuit

Our titanium-lined **SkinSuit** provides warmth, comfort and is easy to take on and off. The **SkinSuit** is designed to wear alone for sun protection and warm-water diving or to wear under a wet or semi-dry suit. Its 0.5mm titanium coating reflects body heat for warmth and comfort and the applied flexible abrasion protection at the knees and shoulders help extend the suit's life. The ankle and foot loops help with donning and doffing.

## Technical Features

- 0,5mm high quality neoprene (petroleum free)
- Flatlock stitching offers additional comfort against the skin
- Inside lined with aluminium glideskin
- Loop at wrist and ankle to keep the suit in place when donning a semi-dry or dry suit.

# CeramiQskin

Our **CeramiQskin** first layer range is the most advanced Aqualung suit ever designed to assist you in staying warm during dives. It can be used under a drysuit or a wetsuit, or it can even be used alone for warm water dives. The material is an exclusive and technical fabric that gives a high level of thermal protection, zero buoyancy and extreme comfort thanks to the Ceramic technology applied in the tri-laminated fabric. **CeramiQskin** is a blend of Lycra exterior with a breathable Polyurethane (PU) membrane and polar fleece inside.

## Technical Features

- Tri-laminated fabric: Lycra for elasticity on the outside, PU membrane with Ceramic technology in the middle for warm protection, and polar fleece against the skin for warmth and comfort
- Zero buoyancy
- Ceramic technology based from volcanic rocks, reflects infrared rays generate by the body to keep you warmth
- Made in France

# Men's Rashguard Slim Fit

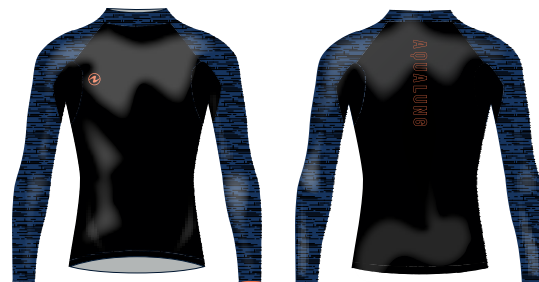

The name **Rashguard** reflects the fact that the shirt protects against rashes caused by abrasion or by sunburn from extended exposure to the sun. But the latest trendy Aqualung rashguards can do a lot more than that; they are designed to be worn both in and out of the water while providing sun protection, ward off jellyfish stings or add an extra layer under your Aqualung dive suit. The range offers close-fitting or loose-fit cuts to suit different needs and styles, and leggings for women.

## Technical Features

- Made with recycled plastic bottles
- 80% polyester / 20% Elastane for elasticity
- Slim Fit
- Provides protection against the sun

# Junior & Kid's Rashguard

The name **Rashguard** reflects the fact that the shirt protects against rashes caused by abrasion or by sunburn from extended exposure to the sun. But the latest trendy Aqualung rashguards can do a lot more than that; they are designed to be worn both in and out of the water while providing UV protection, ward off jellyfish stings or add an extra layer under your Aqualung dive suit.

## Technical Features

- 80% polyester and 20% elastane
- Slim fit
- Provides protection against the sun

- D ring to fasten the hood to he wetsuit
- Matching hydroflex wetsuit

## Gloves

### Liquid Grip

	XS	S	M	L	XL
UNISEX 5 mm	GL1350140XS	GL1350140S	GL1350140M	GL1350140L	GL1350140XL
UNISEX 3 mm	GL1340140XS	GL1340140S	GL1340140M	GL1340140L	GL1340140XL

Aqualung **Liquid Grip** Gloves deliver optimal comfort, warmth and functionality. Liquid rubber seams help the gloves last longer with reduced water transfer and thread fraying. Patented X-tend cuffs provide a durable edge without reducing stretch.

#### Technical Features

- 3 or 5mm neoprene thickness
- Embossed grip for maximum grip
- Liquid rubber-coated seams.
- X-tend cuff finish to preserve stretch and durability

### Dry Comfort

	XS	S	M	L	XL
UNISEX 4 mm	GL1170101XS	GL1170101S	GL1170101M	GL1170101L	GL1170101XL

4 mm **Dry Comfort** gloves that are extremely comfortable in cold waters. They feature two skin, glued & taped seams and a rubberized coating on the palm for added durability.

#### Technical Features

- 4mm Seeflex Nylon II neoprene
- Dry gloves: Double skin out wrist seals are completely watertight
- Glued and taped seams

### Thermocline Kevlar

	XS	S	M	L	XL	2XL
UNISEX 5 mm		GL1720106S	GL1720106M	GL1720106L	GL1720106XL	GL17201062XL
UNISEX 3 mm	GL1650106XS	GL1650106S	GL1650106M	GL1650106L	GL1650106XL	GL16501062XL

These ultra-rugged, warm, and highly ergonomic gloves give you protection and range of motion without expending extra energy on grip. With ballistic-strength nylon fiber on the palms, they provide optimal abrasion protection in harsher conditions and during high-adrenaline activities.

#### Technical Features

- 3 or 5mm neoprene
- Palms, fingers and fingerip backs in durable ballistic-strength nylon for durability
- Triple-glued and blind stitched seams
- Adjustable cinch closure at the wrist

### Thermocline Flex

	XS	S	M	L	XL
UNISEX 5 mm	GL1710106XS	GL1710106S	GL1710106M	GL1710106L	GL1710106XL
UNISEX 3 mm	GL1640106XS	GL1640106S	GL1640106M	GL1640106L	GL1640106XL

Our most ergonomic cold-water glove, the **Thermocline Flex** is made of hyper-stretch neoprene and cut with a gentle flexion in the fingers to eliminate fatigue and make gripping easier. For the recreational diver that explores colder waters and wants to avoid the bulk and hassle of closures and stiffer protective panels.

#### Technical Features

- Ultra stretch 3 or 5mm neoprene (over 200% original size)
- Rubberized palm for better grip
- Triple-glued and blind stitched seams
- Adjustable cinch closure at the wrist

Gloves

# Thermocline

	XS	S	M	L	XL	2XL
UNISEX 5 mm	GL1330101XS	GL1330101S	GL1330101M	GL1330101L	GL1330101XL	GL13301012XL
UNISEX 3 mm	GL1320101XS	GL1320101S	GL1320101M	GL1320101L	GL1320101XL	GL13201012XL

You don't have to sacrifice range of motion for warmth with our **Thermocline** Glove, it's cut to mirror a gentle, natural flexion in the fingers to eliminate fatigue and make gripping easier. Choose from either 3mm or 5mm thicknesses to keep you warm.

## Technical Features

- 3 or 5mm neoprene (over 200% original size)
- Rubberized palm for better grip
- Triple-glued and blind stitched seams
- Adjustable cinch closure at the wrist

# Ava

	S	M	L
Women 6 mm	GL1530105S	GL1530105M	GL1530105L
Women 3 mm	GL1520105S	GL1520105M	GL1520105L

**Ava** gloves are tailored to fit the female hand with longer, narrower palms and fingers. The rubberized pattern helps enhance the grip, and super-stretch neoprene combines with triple glued seams for maximum protection, comfort, and warmth.

## Technical Features

- Specific women fit with longer, narrower palm and fingers
- 3/2mm or 6/4mm high-stretch neoprene (thicker on the back of the hand for more warmth)
- Triple-glued and blind stitched seams
- Fully rubberized palm for better grip

### Admiral III

	XS	S	M	L	XL
Black / Grey	GL1260112XS	GL1260112S	GL1260112M	GL1260112L	GL1260112XL
Black / Blue	GL1264001XS	GL1264001S	GL1264001M	GL1264001L	GL1264001XL
Black / Purple	GL1260501XS	GL1260501S	GL1260501M	GL1260501L	

Wave hello to warm waters in a pair of 2mm **Admiral III** scuba diving gloves. Best suited to warm-water dives, they provide moderate protection, grip, and warmth.

#### Technical Features

- Poly-suede palm
- 2mm neoprene
- Adjustable hook-and-loop wrist closure

### Admiral II

	XS	S	M	L	XL	2XL
Black / White	GL131111	GL131112	GL131113	GL131114	GL131115	GL131116

The Aqualung **Admiral II** gloves are just like the Admiral III gloves, but with more a more conservative look. They provide comfort during warm water dives, high stretch elastic finger gussets and adjustable hook & loop wrist closure. The durable poly suede palms are white to make signaling and hand signs easier to see under water.

#### Technical Features

- Poly-suede palm
- 2mm neoprene
- Adjustable hook-and-loop wrist closure

# Velocity

	XS	S	M	L	XL
Black / Blue	GL1274001XS	GL1274001S	GL1274001M	GL1274001L	GL1274001XL
Black / Grey	GL1270101XS	GL1270101S	GL1270101M	GL1270101L	GL1270101XL

When you have fun, you might as well do it right: the **Velocity** gloves are the ultimate in comfort for warm-water diving. The full-coverage palm grip lets you make air and mask adjustments without fumbling, and the specialized material makes for quick dry times, so they're always ready for the next adventure.

## Technical Features

- Poly-suede palm
- Air mesh and perforated neoprene for quick drying
- High-stretch elastic finger gussets for comfort
- Adjustable hook-and-loop wrist closure

# Manta

	37	38/39	40	41	42/43	44	45	46/47
Black 5mm	BS167010137	BS16701013839	BS167010140	BS167010141	BS16701014243	BS167010144	BS167010145	BS16701014647

**Manta** Boots feature a raised heel, built-in arch, and a patented two-seam pattern for added comfort. Arch support ensures that your foot and ankle are stabilized. Manta Boots come equipped with a heavy-duty zipper for easy donning and doffing. Seams are glued and sewn to maximize boot strength and durability.

## Technical Features

- 5mm neoprene thickness
- Comfortable as a sneaker shoe: compression-molded sole build in arch support, and raised heel
- Slip-resistant
- Durable thanks to the heavy-duty fabrics and non-corrosive zipper

# SuperLow

The ideal warm water dive boot, **SuperLow** Boots are made from as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Less seams doesn't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

## Technical Features

- 3mm neoprene
- Maximum comfort thanks to ISO the Ergo shaped footbed and outsole to match the profile of the foot
- Non corrosive YKK zippers
- Thick treaded sole to protect the feet and specific pattern for slip-resistance

# SuperZip

Keep your feet warm and secure. The **SuperZip** Boots protect your feet with a tight seal that reduces water transfer to keep them warmer for longer. Meanwhile, the cuff binding is made from elastic to provide a more comfortable fit. Superzip Boots are strengthened with extra padding in the sole, toe cap, and heel cap to keep them going strong dive after dive.

## Technical Features

- 3, 5 or 7mm neoprene
- Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot
- Protective 8mm thick treaded sole and additional protection and durable panels on critical areas on the upper
- Non corrosive YKK zippers

# EchoMid

**EchoMid** Boots offer the ideal solution to various conditions. Whether adding extra warmth underwater or keeping your feet protected walking on shore, these pull-on boots are a water lover's best friend. Echomid Boots are crafted with an anatomically correct shaped footbed and outsole to increase comfort by matching the profile of your foot.

## Technical Features

- Mid profile available in 3mm and 5mm neoprene
- Maximum comfort thanks to the Ergo shaped footbed and outsole to match the profile of the foot
- Non corrosive YKK zippers
- Thick treaded sole to protect the feet and specific pattern for slip-resistance

## Boots

### Ergo Sock

	XS	S	M	L	XL
Black / Blue 3mm High	BS1490140XS	BS1490140S	BS1490140M	BS1490140L	BS1490140XL
Black / Blue 3mm Low	BS1450140XS	BS1450140S	BS1450140M	BS1450140L	BS1450140XL

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

### Technical Features

- 3mm neoprene available in high and low profile
- Silicone print on the sole for grip
- Glued and blind-stitched seams prevent water entering

# AquaFlex Hooded

	S	M	ML	L	XL	2XL	3XL
Black / White 6/5/3mm - Men	SU7830109S	SU7830109M	SU7830109ML	SU7830109L	SU7830109XL	SU78301092XL	SU78301093XL
	4	6	8	10	12	14	
Black / White 6/5/3mm - Women	SU78301094	SU78301096	SU78301098	SU783010910	SU783010912	SU783010914	

Increase the range of your dive travels economically: add warmth to any other wetsuit or drysuit by layering this hooded vest underneath. The varying degrees of neoprene thickness in the vest will provide targeted insulation in high heat-loss areas while ensuring the vest can still be taken on and off easily.

## Technical Features

- Ultra-stretch neoprene: 6mm on the hood, 5mm on the front and back, 4mm of the face seal and 3mm on the sides
- Bubble vent in the hood

# AquaFlex

	4	6	8	10	12	14	
Black / White 2mm - Men	SU80301094	SU80301096	SU80301098	SU803010910	SU803010912	SU803010914

Make your dive wardrobe more versatile: add warmth to any other wetsuit or drysuit by layering this thin vest underneath. The varying degrees of neoprene thickness in the vest will provide targeted insulation in high heat-loss areas while ensuring the vest can still be taken on and off easily.

## Technical Features

- 2mm Ultra-stretch neoprene for warmth and full range of motion
- Long lasting seams are glued and blind stitched

# Hooded UnderVest

	XS	S	M	L	XL	2XL
Black - Men		NE1230101S	NE1230101M	NE1230101L	NE1230101XL	NE1230101XXL
Black - Women	NE1240101XS	NE1240101S	NE1240101M	NE1240101L	NE1240101XL	

With an ergonomic shape and integrated aluminum coating, the hooded undervest is the most advanced undersuit available from Aqualung. The aluminum coating acts like a shield and reflects your own body heat back to you, keeping you warm during cold water dives. Enjoy a perfect collar seal, created when the glide skin seals with the internal skin of your wetsuit, keeping water exchange to a minimum.

## Technical Features

- 2.5mm superstretch neoprene (petroleum free) with aluminium coating to increase warmth
- Collar in Glide skin for perfect sealing
- Face seal to limit water entrance and bubble vents to remove trapped bubbles

## Duffel bag

<span style="color: #008080;">●</span> TURQUOISE	BA1774301
<span style="color: #0000FF;">●</span> BLUE	BA1774001
<span style="color: #FF0000;">●</span> RED	BA1770601
<span style="color: #FFFF00;">●</span> YELLOW	BA1770701
<span style="color: #FF8C00;">●</span> ORANGE	BA1770801
<span style="color: #000000;">●</span> BLACK	BA134114

With its carry-on dimensions, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. It's designed especially for scuba, with fin straps that hold any fin. Part of the complete line of Explorer II bags to get you outfitted for dive travel.

### Technical Features

- Durable 1680D polyester and corrosion-resistant zippers
- Protective internal padding, protective V-diamond base and six corner guards
- Mesh drying pocket
- Side pockets for the fins
- Size 24 x 13 x 9" (61x33x23cm)
- Weight 3.5Lbs (1.5 Kg)
- Volume: 45L

## Explorer II Roller

- TURQUOISE BA1764301
- BLUE BA1764001
- BLACK BA134112

This rolling luggage accommodates a full dive kit and all your other travel gear. Designed especially for scuba, it has side pockets that will fit our larger fins for stowing on the go. Coordinates with the rest of our **Explorer II** line of bags.

### Technical Features

- Durable 1680D polyester and corrosion-resistant zippers
- Protective internal frame structure to be shock-absorbent, skid rails protective V-diamond base and eight corner guards
- Rugged Wheels and lightweight, extendable aluminium handle
- Side pockets for the fins
- Size 29 x 20 x 13" (73x51x33cm)
- Weight 9.5Lbs (4.4 Kg)
- Volume: 120L

## Explorer II Carry on

- BLACK BA134113

The **Explorer II** Carry-On is uniquely designed to pack an entire set of Aqualung travel specific dive gear. This bag has handles on both sides to help you get it in and out of airplane overhead compartments and comes with external and internal organization pockets.

### Technical Features

- Durable 1680D polyester and corrosion-resistant zippers
- Protective internal frame structure to be shock-absorbent, skid rails, protective V-diamond base and eight corner guards
- Rugged Wheels and lightweight, extendable aluminium handle
- Size Folded 22 x 14x 8" (55 x 35.5 x 20cm) - 7.3Lb (3.3Kg)
- Volume: 40L

## Explorer II Folder

● BLACK FOLDER,141L

BA134111

If your active lifestyle leaves you short on storage space, here's a big roller bag that folds into a small space when not in use. Part of our complete line of coordinating **Explorer II** bags for the traveling diver.

### Technical Features

- Durable 1680D polyester and corrosion-resistant zippers
- Rugged wheels and lightweight, extendable aluminium handle
- Folding base for easy, low-profile storage
- Size Folded 30 x 17x 3" (76x43x7.5cm)
- Size unfolded 30 x 17x 17" (76x43x43cm)
- Weight 10Lbs (4.5Kg)
- Volume: 140L

# Adventurer Mesh

	BLACK	BA1750101
	RED	BA1750601
	YELLOW	BA1750701
	ORANGE	BA1750801
	BLUE	BA1754001
	TURQUOISE	BA1754301

Need a bag to store your gear between dive trips? Tired of wheeling your fancy travel luggage full of dive gear to the beach? Have an unorganized rental locker? The Aqualung **Adventurer Mesh Bag** is the perfect solution. Whether it's used to differentiate kit sizes in a dive locker, brought on a trip to leave your luggage in the hotel or just to keep your gear packed neatly away, the **Adventurer Mesh Bag** is up to the task.

## Technical Features

- Soft Polyester mesh body folds down to the size of a sweatshirt for easy packing and travel
- Mesh body allows to rinse your whole kit and let it dry while on the go
- Corrosion resistant zippers
- Removable padded shoulder strap
- Size: 34 x 76cm
- Weight 0,6kg (1,25livre)
- Volume: 70L

## Explorer II Collaps

● BLACK BA1790101

The Aqualung **Explorer II** Collapsible Mesh Duffel is your biggest friend and smallest ally for your next dive trip. The duffel portion zips into a pocket on the back of the regulator compartment, allowing you to bring your heavy regulators and delicate dive computer on the plane as a personal item. This will help you avoid over weight fees, gives you a spare mesh dive bag and doesn't prevent you from also bringing your **Explorer II** Carry-on.

### Technical Features

- Padded regulator compartment
- Mesh duffel is perfect for rinsing and drying the gear
- Corrosion resistant zipper
- Open: 34 x 13" diameter (80 x 35d cm)
- Closed: 5x13" diameter (2;7x33d cm)
- Volume: 75L

## Pro Pack One

● BLACK NAVY BLUE BA1800104

The Aqualung **Pro Pack One** features a top-loading design with multiple organization pockets for your gear on dive days or day to day needs for all those other days. The spacious main compartment features a laptop sleeve and the bottom entry compartment is padded for your regulators or mask.

### Technical Features

- Padded pocket for regulator or mask
- Multiple storage: laptop pocket, sunglass pocket, water bottle pocket
- Bottom pocket for additional storage
- Size: 20.5 x 12.5 x 7.5" (52 x 32 x 19cm)
- Volume: 30L

## Explorer II Regulator Bag

● BLACK BA1780101

The Aqualung **Explorer II** Regulator Bag is the perfect bag for protecting your regulators. The combination of foam and PE padded walls protect your delicate gear while the round shape minimizes hose kinks. The compact design packs flat and pairs with all the bags in the **Explorer II** Collection.

### Technical Features

- Corrosion resistant zipper
- Protective padding
- Size: 13 x 12 x 4" (33 x 30 x 10cm)

## Defense Duffel Bag

● BLUE BA117111

This rugged, pit bull of a duffel, has waterproof seams to keep your favorite gear completely dry on any dive adventure. The bag is designed to carry a full set of dive gear, including your BC. When the dive is over, use the drain on the side of the bag as a rinse bucket and fill the bag with all your wet gear - the water won't leak out.

### Technical Features

- 500D Nylon core 0.6mm double coated tarpaulin material and YKK zipper (#10)
- Heat welded waterproof seams and replaceable side drain valves
- Size: 26 x 16" diameter (66 x 40.5cm) - 85Liters

## The Classic bag

● YELLOW BA111132

The **Classic Bag** offers good proportions to carry your dive equipment, including one external pocket for the fins and another external zip pocket to keep your personal items safe and dry.

### Technical Features

- PVC coated 1200 Decitex Nylon
- External fins pocket
- Size: 78 x 40 x 35cm - 100 Liters

## Travel dry Bag

● BLACK BA111131

Perfect durable waterproof bag to carry wet equipment.

### Technical Features

- Bag made with Tarpolin
- 2 screwed Valves
- Size: 85 x 35 x 45cm - 130 Liters

## Big Squeeze

SQUEEZE BLUNT TIP BLADE	KN11511
SQUEEZE SHEEPS FOOT BLADE	KN11611
SQUEEZE SPEAR TIP BLADE	KN11711

These **Big Squeeze** Knives feature the time-tested patented “squeeze-lock” design which allows the user to easily remove and secure the knife into the sheath, every time. The articulated handle, metal butt cap and blade safety features are meticulously designed to suit the needs of a diver. It has even got a bottle opener.

### Technical Features

- 10.8cm (4 1/2 in.) blade, 24.2cm (9 1/2 in.) overall length.
- 304 stainless steel or high grade Beta Alloy Titanium.
- Patented locking mechanism
- Nylon with fiberglass fill handle and sheath

## Squeeze

SQUEEZE BLUNT TIP BLADE	KN121111
SQUEEZE SHEEPS FOOT BLADE	KN122111
SQUEEZE SPEAR TIP BLADE	KN123112

These **Small Squeeze** Knives feature the time-tested patented “squeeze-lock” design which allows the user to easily remove and secure the knife into the sheath, every time. The articulated handle, metal butt cap and blade safety features are meticulously designed to suit the needs of a diver. It has even got a bottle opener and can be mounted on to any BCD.

### Technical Features

- 8.9cm (3 1/2 in.) blade, 17.8cm (7 in.) overall length.
- 304 stainless steel or high grade Beta Alloy Titanium.
- Patented locking mechanism
- Nylon with fiberglass fill handle and sheath

# Micro Squeeze

- MICRO SQUEEZE BLUNT TIP BLADE      KN118111
- MICRO SQUEEZE SAFETY BLADE      KN119111

Small but mighty. These **Micro Squeeze** Knives feature the time-tested patented “squeeze-lock” design which allows the user to easily remove and secure the knife into the sheath, every time. This tiny knife can be mounted to your Aqualung buoyancy compensator pocket with the mounting hardware, to the chest strap, the shoulder straps or to a wrist computer strap for ultimate quick response and convenience.

## Technical Features

- 5.1cm (2 in.) blade, 9.5cm (3 3/4 in.) overall length, 18.4cm (7 1/4 in.) including the handle extension webbing
- 304 stainless steel or high grade Beta Alloy Titanium
- Patented locking mechanism
- Nylon with fiberglass fill handle and sheath

# Squeeze color pack

- MICRO SQUEEZE COLOR PACK      KN911133

### Technical Features

- Blade length: 9 cm
- Total length: 20.8 cm
- Thickness: 3mm
- Weight: 145 g

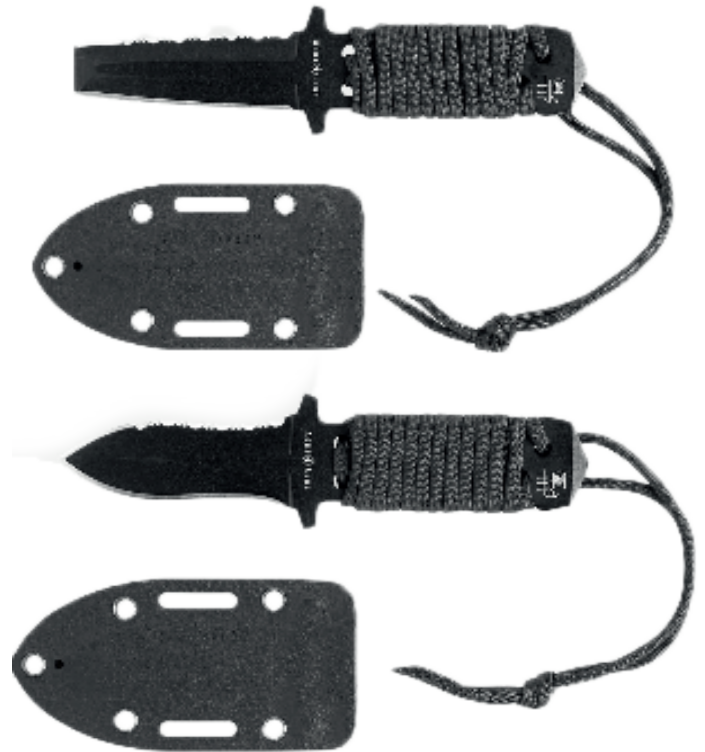

# Argonaut Stunt

ARGONAUT SPARTAN BLADE      KN124111  
 ARGONAUT TIP BLADE      KN125111

The **Argonaut Stunt** Knife is one of the best and toughest knives. The butt, handle, hilt and blade are all fashioned out of one piece of 4mm thick 420 Stainless Steel. The blade is available in two styles: the Spartan and the Blunt. The Spartan comes to a spear head point with one side featuring rounded serrations to prevent snags on rope. The Blunt comes to a blunt chisel like tip.

## Technical Features

- Strong, Single-Piece Design of 420 stainless steel
- Corrosion-Resistant: Steel is coated in black EDP for longevity in saltwater.
- Double-wrapped in paracord for grip
- Multi-Function Handle: The handle features skeleton holes that serve as hex wrenches for use in emergency situations.
- Balanced Length: Blade is 3" (7.7cm) and handle is 4" (10cm)..
- Includes 2" (5cm) belt loop and BCD mounting hardware.

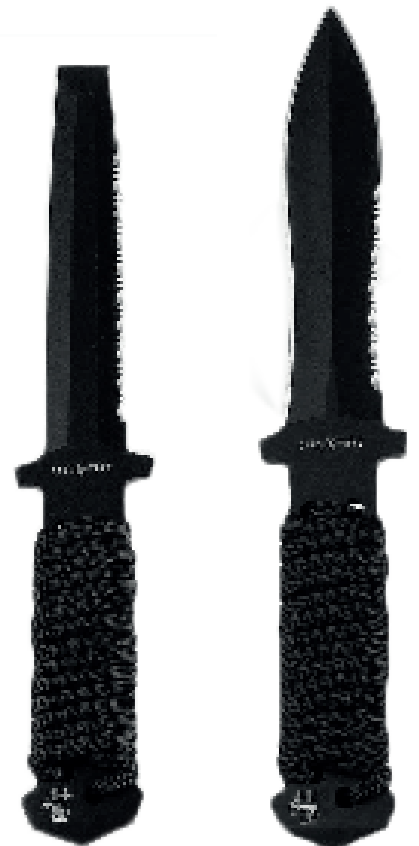

# Argonaut Titanium

ARGONAUT TITANIUM BLUNT TIP      KN132111  
 ARGONAUT TITANIUM SPARTAN TIP      KN133111

The **Argonaut Dive** knives are designed to be one of our best and toughest knives.

## Technical Features

- Blade and Handle are made of 4mm thick, high rust resistant Titanium
- The blade is 4 7/8" (12.38cm) long and the handle is 4 7/8" (12.38cm)
- The handle is double wrapped in 5mm paracord
- Comes with 2 rubber leg straps
